Success

focus

THE LONGEVITY OF OUR SUCCESS COMES FROM MAKING SURE WE ARE THE BEST IN THE INDUSTRY!!

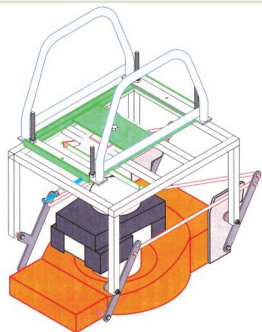

Carolina Greenhouses will be offering a 242 cell tray this season as well as other trays that are compatible with the old "Transplant" trays and other competitors. Ask us about it!

2012 SEASON JUST AROUND THE CORNER!

My how time flies when you are having fun! With the new season just around the corner it is time to start preparing for the upcoming tobacco transplant season. Carolina Greenhouses has planned diligently to make sure we are fully stocked and ready to fill all orders. Hurricane Irene really made her presence felt along the Eastern Seaboard and we want to make sure everyone gets the supplies and parts they need before seeding time arrives. Whether its plastic,

fans, heaters, repair parts, or potting soil, we are ready to ship on request. Don't forget that we now can combine greenhouse supplies with potting soil shipments. This is free freight folks and with freight prices as high as they are, it's a perfect way to keep your cost down and pass it on to your valued customers. Give our knowledgeable and friendly sales staff a call today and we will continue to take care of you like we have for the last 25 years!

New Mower Frame Design

This season we will be offering a new style of mower frame. This unit is designed to be center hung and not "off-set" like the older version. This style requires minimal leveling once the mower is set. It is designed with a crank system to allow you to move the mower up or down depending on the size of your plants and eliminates having to level it each time you hang it!
